

# CASE-ACB 468151.070

MULTI-PURPOSE BATTERY POWER SUPPLY UNIT

The product is intended for use as a part of any PELENA radio electronic jamming device.

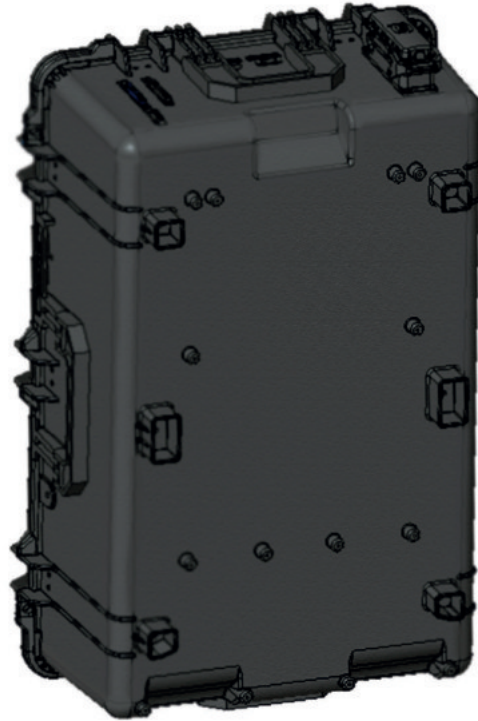

The product is supplied complete with AKB-Case, 220 V power cable, load connection cable, and documentation.

# FEATURES

- High capacity, min. 110 A/h.
- Easy to install and to use.
- No give-away factors.
- It can be operated at ambient temperature from minus 20 to plus 40 °C.
- Extreme low/high temperature exposure during storage minus 40/plus 50 °C.

Output voltage (determined by customer requirements):

$14.4 \pm 2.4$  or  $28.8 \pm 8.8$  V

Charging voltage:

220 (+22, -33) V

Discharge current:

max. 100 A

Weight:

max. 40 kg
